Title Index

Ability Grouping and Students' Academic Self-Concepts: A Case Study—Donna Eder, 149–161

Achievement in Mathematics: Results from the National Assessment—Thomas P. Carpenter, Westina Matthews, Mary Montgomery Lindquist, and Edward A. Silver, 485–495
Affective Variables and Mathematics Education—Laurie Hart Reyes, 558–581

Book Review—Susan Florio-Ruane, 345–349
By Popular Demand—Reba Pekala, 25–27

"Can You Read My Story?" Approaches to Conferencing with Children—Bill Silver, 35–39
The Case for Oral Language in Schooling—David Corson, 458–467
Characteristics of Successful Writing Instruction: A Preliminary Report—Jamie Carter, 40–44
Children's Mathematics Learning: The Struggle to Link Form and Understanding—James Hiebert, 497–513
Combining Cooperative Learning and Individualized Instruction: Effects on Student Mathematics Achievement, Attitudes, and Behaviors—Robert E. Slavin, Marshall B. Leavey, and Nancy A. Madden, 409–422
Component Building: A Strategy for Research-based Instructional Improvement—Robert E. Slavin, 255–269

Developmental Spelling as a Predictor of First-Grade Reading Achievement—Darrell Morris and Jan Perney, 441–457
Direct Instruction: A Project Follow Through Success Story in an Inner-City School—Linda A. Meyer, Russell M. Gersten, and Joan Gutkin, 241–252
Direct Instruction Mathematics: A Longitudinal Evaluation of Low-Income Elementary School Students—Russell Gersten and Doug Carnine, 395–407

An Editorial Statement—Thomas L. Good, November, 111
An Editorial Statement—Douglas A. Grouws, May, 483
Effects of an Integrated Approach to Grammar Instruction on Third Graders' Reading and Writing—Ruth M. Noyce and James F. Christie, 63–69
The Effects of Instruction on Children's Understanding of the "Equals" Sign—Arthur J. Baroody and Herbert P. Ginsburg, 199–212
The Elementary School Mathematics Curriculum: Issues for Today—Mary Montgomery Lindquist, 595–608

A Factor Analysis of Teachers' Intervention Choices for Dealing with Students' Behavior and Learning Problems—Bob Algozzine, James E. Ysseldyke, Sandra Christenson, and Martha L. Thurlow, 189–198
Forgotten Children in Classrooms: Development and Characteristics—Deborah A. Byrnes, 271–281

The Home and School Lives of Women Teachers—Dee Ann Spencer, 283–298
The Home and School Lives of Women Teachers: Implications for Staff Development—Dee Ann Spencer, 299–314
How Teachers Teach the Writing Process—Sondra Perl, Reba Pekala, Jack Schwartz, Anita Graves, Bill Silver, and Jamie Carter, 19–44

Improving Classroom Management: An Experiment in Elementary School Classrooms—Carolyn M. Evertson, Edmund T. Emmer, Julie P. Sanford, and Barbara S. Clements, 173–188
Instruction and Student Independence—Peter Johnston, 338–344
Interview with Michael Armstrong—Brenda S. Engel, 350–356
Introduction—Walter Doyle, 1

Local Coherence: Helping Young Writers Manage a Complex Task—Deborah McCutchen and Charles A. Perfetti, 71–75
Long-Term Academic Effects of the Direct Instruction Project Follow Through—Linda A. Meyer, 380–394

Mathematics in English Primary Schools—Hilary Shuard, 583–594
Mental Computation and Estimation: Past, Present, and Future—Robert E. Reys, 547–557
Methodological and Conceptual Issues in Writing Research—Nancy L. Stein, 100–108

A Nation at Risk: The Imperative for Educational Reform—National Commission on Excellence in Education, 113–130
New Nostalgia—Steven T. Bossert, 138–141

Overview of an Ethnographic Research Project—Sondra Perl, 19–24

Political Thinking in the Elementary Years: An Empirical Study—Kitty G. Abraham, 221–231
A Program to Develop Basic Writing Skills in Grades 4–9—Richard H. Coop, Kinnard

White, Barbara Tapscott, and Linda Lee, 76–87
Putting Writing Research into Practice—Ann Humes, 3–17

Reading Miscues and Teacher Verbal Feedback—James V. Hoffman and Richard Clements, 423–439
Realities and Remedies—Robert E. Slavin, 131–138
The Relationship of Title I Student Achievement to Program and School Attendance—Robert L. Ziomek and William J. Schoenenberger, 232–240
Research on Writing: A Response—Joseph F. Dominic, 88–92
Research Perspectives on Problem Solving in Elementary School Mathematics—Edward A. Silver and Alba G. Thompson, 529–545

Sentence Combining: A Sequence for Instruction—Joseph Lawlor, 53–62
Sharing as a Motivation for Writing—Anita Graves, 33–35
Six Teachers' Beliefs and Attitudes and Their Curricular Time Allocations—William H. Schmidt and Margret Buchmann, 162–172
A Social Construction of Reality—Peter M. Hall, 142–148
A Special Report: Detecting Early Signs of Scoliosis—Gloria Godley and Karen Monks, 357–362
Students' Misconceptions Interfere with Science Learning: Case Studies of Fifth-Grade Students—Janet F. Eaton, Charles W. Anderson, and Edward L. Smith, 365–379

Tactical Planning of Writing Instruction—Robert A. Shaw, Joan Pettigrew, and A. D. Van Nostrand, 45–51
Teacher Expectations: A Model for School Improvement—C. Patrick Proctor, 469–481
Teacher Interpretation of Student Behavior: Cognitive and Social Processes—Kathryn M. Anderson-Levitt, 315–337
Teaching Students to Write Informational Reports—John D. Beach, 213–220
Three Reaction Papers—Joseph F. Dominic, Susan Florio-Ruane, and Nancy L. Stein, 88–108
Three Reaction Papers—Robert E. Slavin, Steven T. Bossert, and Peter M. Hall, 131–148
Toward More Effective, Efficient Instruction in Mathematics—Paul R. Trafton, 514–528

Using Journals to Encourage the Writing Processes of Second Graders—Jack Schwartz, 27–32

What's So Hard about Writing? The Issues for Teachers and Students—Susan Florio-Ruane, 93–99
